

## **GNAX / NetDepot Announces Dallas Dedicated Server Promotion**

ATLANTA March 9, 2009 Global Net Access, LLC (GNAX), owner of GNAX, NetDepot and tranxactglobal, today announced their first sales promotion for Dallas-based Dedicated Servers.

NetDepot will offer is MEGA Free Ram promo on its dual quad core 5410 and single quad core 9400 offerings in its Dallas location. This can be combined with a 3 months free promotion for those moving servers from competitors. The 3 months free will give the customer the first month for free and then January and February of 2010 for free as well.

This is the best offer in the industry currently on dedicated servers.

The Dual Harpertown 5410's will get 10 gigabytes of ram for free for a total of 12 gb. This is normally a 500 per month server with this much ram for the competitors. The Q9400's will receive 4 gigabytes of ram for free for a total of 8 gb.

Each of the server promotional specials will come with a Raid edition 500GB SATA II Hard Drive, 10MBPS unmetered bandwidth and all of the netdepot features including our state of the art portal, backend network for unmetered file transfer and attachment to the iSCSI storage SAN, ipKVM for select servers and industry leading TopLayer IPS / IDS ddos protection and threat suppression.

“We believe that the Dallas area dedicated server population will be genuinely excited to see a new option in the marketplace, especially one that offers top-end servers at highly competitive pricing and an enhanced network experience,” said Jeff Hinkle, President of GNAX.

Additionally for the customers that want to collocate and combine this with an all in one financial and warranty and support solution - NetDepot's famous Lease to Own is available immediately in the DallasNAP location. Lease to own options in Dallas so far have not been available from the larger more established providers.

NetDepot currently provides service to thousands of customers worldwide with 24x7x365 support by seasoned, best-in-industry professionals. NetDepot allows your company to focus its attention on core competencies and gain competitive advantages in your core line of business.

The ability to order servers is available immediately at [www.netdepot.com](http://www.netdepot.com).

### About GNAX/NetDepot

With more than fourteen years in the industry, GNAX and Netdepot are trusted by thousands of customers that span almost every country in the world. It operates out of its sister company AtlantaNAP ( [www.atlantanap.com](http://www.atlantanap.com) ) and DallasNAP ( [www.dallasnap.com](http://www.dallasnap.com) ) which owns and operates a state of the art data center centrally located in the historic West End area of Atlanta.

NetDepot is a premier global brand of dedicated servers operating under the Global Net Access, LLC. ( [www.GNAX.net](http://www.GNAX.net) ) umbrella of companies.
